#### Description

I feel like Making History is missing a 1.25m Engine Plate. Especially now with bare variants of the Spark and Ant, you really have quite a few small engine configurations that could make use it. I use the one in Missing History mod, but I'm sure the console people would also enjoy one in their upcoming dlc. Engine Plates are one of the best parts in the collection and they need to be a complete set. There is no need for a 0.625m Engine Plate as the use case opportunities are few.

Thank you so much for adding this in 1.12. It feels like a personal "thank you" gift to me. Regardless, it is a valuable and welcomed addition!
