

Kerbal Space Program - Bug #24405

Servo motor only updates position when motor size changes.

11/21/2019 02:09 AM - Cinaedus

Status:	New	Start date:	11/21/2019
Severity:	Low	% Done:	0%
Assignee:			
Category:	Gameplay		
Target version:			
Version:	1.8.1	Language:	English (US)
Platform:	Windows	Mod Related:	No
Expansion:	Breaking Ground		

**Description**

Servo motors do not change their alignment, nor the alignment of anything attached to them, until the servo size is changed, which seems to force it to load. Dragging the motor size gauge around causes the servo motor to animate normally.
