#### Description

Kerbin has a white glow completely around it, visible even on the dark side. It's pretty ugly. It's visible everywhere, both in game and on the main menu. I have some mods installed, but none that would plausibly cause this. If no one can replicate it, I'll try a clean install.

Very helpful comment indeed.

Confirmed in a clean install - base game + serenity, no mods. Setting status confirmed, cross-posting to forum. Visual artefact present in all scenes where kerbin is visible, other bodies not tested. System specs in attached log.

Ed. Confirmed again without serenity expansion, this is a base game problem.
