

Kerbal Space Program - Bug #24866

Breaking Ground Hinges no longer free swing

02/16/2020 02:50 AM - XLjedi

Status:	Resolved	Start date:	02/16/2020
Severity:	Low	% Done:	100%
Assignee:			
Category:	Bug Tracker		
Target version:	1.9.1		
Version:	1.9.0	Language:	English (US)
Platform:	Windows	Mod Related:	No
Expansion:	Breaking Ground		
Description In 1.8 this worked fine. If you set the following hinge parameters: Motorized = No Locked = No Then the hinge would swing freely and allow you to create things like active suspensions and pivot points for cranes and so forth. In 1.9 the joints are all locked. When you launch the example craft file, it free swings in 1.8.1 and in 1.9 it is locked.

What the actual hell? **THEY FIXED THAT IN 1.8.1 AND NOW IT'S BACK IN THE GAME?** I just checked it and it is indeed not working again. I have no words. Squad really blew it this time.

A workaround is to say motorized:yes and size the motor to zero,
(and then switch back to motorized:no if you like).

- Status changed from New to Ready to Test

- Target version set to 1.9.1

- % Done changed from 0 to 80

We've made some changes in the latest build and would like some input on this issue please. Thanks.

#7 - 03/22/2020 01:16 PM - XLjedi

Appears to be resolved in 1.9.1

I consider this one FIXED now. Thank you!

#8 - 04/05/2020 03:29 AM - TriggerAu

- Status changed from Ready to Test to Resolved
- % Done changed from 80 to 100

Thanks for checking, resolving thisone
