

Kerbal Space Program - Bug #25153

KSPedia entries created with the latest PartTools do not load in KSP 1.9.+

04/13/2020 01:48 PM - Nils277

Status:	Ready to Test	Start date:	04/13/2020
Severity:	Low	% Done:	80%
Assignee:			
Category:	KSPedia		
Target version:	1.11.1		
Version:	1.9.1	Language:	English (US)
Platform:	Windows	Mod Related:	Yes
Expansion:	Core Game, Making History		

Description

When creating KSPedia entries for KSP 1.9.1 with the latest Parttools, they are not loaded:

The Parttools are from there

<https://forum.kerbalspaceprogram.com/index.php?topic/160487-parttools-updated/>

The workflow used to have it working with TextMeshPro from here:

<https://forum.kerbalspaceprogram.com/index.php?topic/189355-kspedia-creation-impossible-with-180-parttools-solved/>

In the KSP.log there are no more Warnings that an outdated KSPedia version is used. However the KSPedia entries are still not visible

Attached you find a KSPedia version from the KPBS mod which was created with the latest PartTools.

History

#2 - 06/05/2020 01:24 PM - Robert.Keech

- Status changed from New to Updated

- % Done changed from 0 to 10

#3 - 01/29/2021 02:03 PM - victorr

- Status changed from Updated to Ready to Test

- Target version set to 1.11.1

- % Done changed from 10 to 80

We've made some changes in the latest version of the game and would like some feedback on this issue. Thanks.
