

Kerbal Space Program - Bug #25731

Placeable flags float slightly off the surface of 2.5m parts and fairings of all sizes

Version:	1.10.0	Language:	English (US)
Platform:	Windows	Mod Related:	No
Expansion:	Core Game		

Description

The placeable flags introduced in 1.10 appear to float slightly off the surfaces of 2.5m parts, as well as fairings of all sizes. This can be fixed by use of the offset tool, but it is very difficult to accurately move the flag to fit on the surface without it clipping partially into the side of the parent part.  
A picture is worth a thousand words, so here you go:
