<b>Expansion:</b>	Core Game		

#### Description

When IVA config allow Helmet "on" for Kerbals, i've noticed Female Kerbals look like without visor Helmet. Also noticed NormalMap don't match on the Helmet for Male & Female Kerbals

Could be only Mod related because i don't think Stock IVA allow Helmet. But still a Stock bug for me.  
This missing visor is not new btw, already present in 1.9.1 and maybe older KSP version.
