

Kerbal Space Program - Bug #25803

A.I.R.B.R.A.K.E.S. Deployed airbrakes display incorrectly in editor

07/18/2020 03:52 AM - shaun_dove

Status:	Duplicate	Start date:	07/18/2020
Severity:	Low	% Done:	100%
Assignee:			
Category:	Editor		
Target version:			
Version:	1.10.0	Language:	English (US)
Platform:	Windows	Mod Related:	No
Expansion:	Core Game		
Description			
Airbrakes that are set to be open in the editor open too far. The displayed opening angle in degrees appears to be the percentage of the authority limiter. Changing the deploy angle does not change the opening angle in the editor.

- Status changed from New to Confirmed
- % Done changed from 0 to 10

Not only do they display wrong regarding their deployed angle, they also respond to the wrong limiters.

Deploy reacts to the authority limiter instead and does so with the range of the deploy limit.
That's the only way I can explain to me, how it's at 100 degree while the limiter it responds to is set to 70 degree.

- Is duplicate of Bug #24458: Airbrakes extend further than they should in the editor added

#8 - 09/01/2020 11:09 AM - shaun_dove

Is not a duplicate. 24458 is a ui glitch to do with extension being longer than the piston. This bug refers to the sliders doing the wrong thing. Please change the status back.
