Kerbal Space Program - Bug #25933

Engine in structucal cylinder doesn't show delta-v

08/09/2020 06:14 AM - jukkamuhonen@hotmail.com

Status:	New		**Start date:**	08/09/2020
Severity:	Low		**% Done:**	0%

Category:	Controls and UI			
Target version:				
Version:	1.10.0		**Language:**	English (US)
Platform:	Windows		**Mod Related:**	No
Expansion:	Breaking Ground, Core Game, Making History			

Description
When put structural cylinder, and small engine to inner node of that cylinder (so cylinder works like handmade engineplate). Game doesn't show/calculate delta/v at all, but engine works when flying.
