

Kerbal Space Program - Bug #25987

M700 Survey Scanner range on Eve extends below Atmosphere

08/24/2020 05:30 PM - jjansen

Status:	New	Start date:	08/24/2020
Severity:	Low	% Done:	0%
Assignee:			
Category:	Science		
Target version:			
Version:	1.10.1	Language:	English (US)
Platform:	Windows	Mod Related:	No
Expansion:	Breaking Ground, Core Game, Making History		

Description

Eve's atmosphere extends to 90km, Surface Scanner requires between 70km and 1500km, making an "orbital survey" technically possible from within atmosphere.
