

Kerbal Space Program - Bug #26238

Mining drills sometimes stop when craft loses focus

10/10/2020 02:40 AM - jjrobinson2@gmail.com

Description

About half the time or more, the large drills on my miner/refinery on Gilley stop if focus moves to another craft. This also stops the surface harvesters, and ore collection ceases. I also had this problem earlier with a smaller miner/refinery on the Mun.
