

Kerbal Space Program - Bug #26886

(Not a bug) Only Kerbals assigned to first pod on launch can use their personal parachutes on EVA

Target version:			
Version:	1.11.0	Language:	English (US)
Platform:	Windows	Mod Related:	No
Expansion:	Breaking Ground, Core Game, Making History		

Description

Kerbals not assigned to the first pod (the top one on the *Crew List*) can't use their personal parachutes on EVA.

I'm playing on vanilla KSP.

I reproduced the bug many times in both *SPH* and *VAB*.

Transferring the kerbal to the first pod after the launch doesn't solve it.

I made certain all kerbals in the tests had their parachutes in their inventory.

History

#1 - 12/19/2020 04:25 AM - dok_377

Non-pilot kerbals can't use their parachutes unless they have at least one star of experience. It's clear that Corsey doesn't have that, and he is not a pilot.

I'm an idiot, sorry and thank you. Now how can I delete the issue? I find it very hard to use this website.

I found a button to delete the issue at My Issues but it doesn't let me.

I don't think you actually can. This tracker is filled with a lot of stuff similar to this. Just leave it, the developers will disregard it and maybe even close it

in the future.
