

Kerbal Space Program - Bug #26921

game crashes constantly with error CE-34878-0 (ps4)

12/24/2020 05:58 AM - osobecerra

Status:	New	Start date:	12/24/2020
Severity:	Low	% Done:	0%
Assignee:			
Category:	Application		
Target version:			
Version:	PS4 - Enhanced Edition 2020-10-14 Patch 13	Language:	English (US)
Platform:	PS4	Mod Related:	No
Expansion:	Breaking Ground, Core Game, Making History		

Description

After a transitional loading screen, especially when revert flight is used several times, the game crashes to ps4 home with error CE-34878-0.

The savefile is corrupted in the process but the game loads a backup file.

Hello I am having the same problem like you where the game crashes so many times

Like every time I play I crash randomly when entering the Vab, Sph, tracker station, Launch Pad, And Runway

I'm not sure what really causes it but for me it usually Happens when I Play for quite some time but just randomly happens often.

The Crashes were so Common That one day I Lost probably a Years work of my save game.

I don't know if there's a solution to fix this problem but hopefully this gets fixed because I feels like I cant even play my favorite game Ksp.
