#### Description

GOG KSP 1.11.0 (no mods, no dlcs)

#### Screenshots Showing Issue:

Before: The Battery is on the side of the rover  
Holding Part and Pressing F5 (Quick Save): The Battery is held and moveable by the mouse pointer  
On using F9: The Battery is gone.

#### Recommendation:

The easiest fix here is probably disable Quick Saving when in EVA Construction mode with a message like, 'Exit EVA Construction to Quick Save'

#### Note:

Disabling the menu to avoid manual saving was a good call, but Quick Save bypasses that.
