#### Description

Repair contracts don't work on Linux because its file system is case sensitive.

The directory KSP\_linux/GameData/Squad/Contracts/PrebuiltCraft in the distribution file ksp-linux-1.11.0.zip should be named PreBuiltCraft, to match with the content of

./GameData/Squad/Contracts/PreBuiltCraft/OrbitalConstructionContract/orbitalConstructionContractCraft.cfg,

./GameData/Squad/Contracts/PreBuiltCraft/RoverContract/roverContractCraft.cfg,

./GameData/Squad/Contracts/PreBuiltCraft/RepairContract/repairContractCraft.cfg

Renaming the directory manually fixes the problem.
