Target version:			
Version:	1.11.0	Language:	English (US)
Platform:	Windows	Mod Related:	No
Expansion:	Breaking Ground, Core Game, Making History		

Description

VERSION:
Steam - 64-bit

DESCRIPTION:

Using the ctrl+z part duplication method around seemingly any decoupler-type part causes immediate crash. GPU spike up to 100% is observed in task manager:

Crash log is also not generated when this occurs

HOW TO REPLICATE:

- 1: Within the VAB, select a generic decoupler (eg. TD-12) as a base part
- 2: Select a generic fuel tank (eg. T400) and attach it below decoupler
- 3: Click and move fuel tank off decoupler

- 4: CTRL+Z to replace fuel tank
- 5: Place original tank below copy

EXPECTED RESULT:
Immediate crash or after a few seconds.
