

Kerbal Space Program - Bug #27126

Possible redundant cfg files in Steam repository.

01/22/2021 11:29 PM - graytechgy

Status:	New	Start date:	01/22/2021
Severity:	Low	% Done:	0%
Assignee:

Target version:			
Version:	1.11.0	Language:	English (US)
Platform:	Windows	Mod Related:	No
Expansion:	Core Game		

Description

When installing from steam I get the following files/folders

Folders

GameData\Squad\Parts\FuelTank\fuelTankT100

GameData\Squad\Parts\FuelTank\fuelTankT200

GameData\Squad\Parts\FuelTank\fuelTankT400

GameData\Squad\Parts\FuelTank\fuelTankT800

fuelTankT100 contains fuelTankT100.cfg

fuelTankT200 contains fuelTankT200.cfg

fuelTankT400 contains fuelTankT400.cfg

fuelTankT800 contains fuelTankT800.cfg

These seem redundant since "GameData\Squad\Parts\FuelTank\Size1_Tanks" contains these cfg files and the ones in Size1_Tank contain more details.

I am inquiring to see if this is a repository error.

History

#1 - 01/22/2021 11:35 PM - graytechgy

- File FuelTank.zip added

#2 - 02/01/2021 08:37 PM - graytechgy

Now understand issue. It was caused by a Steam cloud save restoring files from an old version into the GameData folder

Files

FuelTank.zip	3.96 KB	01/22/2021	graytechgy
