

Kerbal Space Program - Bug #27179

Eva construction: Small pistons closes and opens when trying to put on empty space.

01/29/2021 10:22 PM - jukkamuhonen@hotmail.com

Status:	New	Start date:	01/29/2021
Severity:	Low	% Done:	0%
Assignee:			
Category:	Controls and UI		
Target version:			
Version:	1.11.1	Language:	English (US)
Platform:	Windows	Mod Related:	No
Expansion:	Breaking Ground		

Description

pistons seems sometimes red, when trying to place them anywhere, solving this by hovering it to left over items and go back to play screen lets you to put it where you want but it will close and open and fly that direction fast.

FEEDBACK:

I have destroyed my whole minmus mining base trying to eva build something.

Putting robotic parts on EVA be like

#2 - 01/29/2021 10:28 PM - jukkamuhonen@hotmail.com

<https://youtu.be/2dyLpTM1Zqc>

After destruction end of struts started rolling away from vessel freely, this is creepy.
