Version:	1.11.1	Language:	English (US)
Platform:	Windows	Mod Related:	Yes
Expansion:	Breaking Ground, Core Game		

Description

When playing KSP 1.11.1, the game just crashes at random moments both in the VAB/SPH and in flight. The crash window says "unexpected mark stack overflow". The issue happened to me like 4 times in a period of 2 months. The only mod i have is Kerbal Engineer Redux, CKAN told me that it's compatible.
