

Kerbal Space Program - Bug #28047

[Visual Bug] - HG-5 High Gain Antenna Semi-Extended

06/25/2021 08:43 PM - MarlusKeep

Status:	New	Start date:	06/25/2021
Severity:	Low	% Done:	0%
Assignee:			
Category:	Parts		
Target version:			
Version:	1.12.0	Language:	English (US)
Platform:	Windows	Mod Related:	No
Expansion:	Breaking Ground, Core Game, Making History		

Description

When you launch a craft that have one HG-5 High Gain Antenna attached, they start semi-extended.

This bug is similar to what happened with SP-L and SP-W solar panels, when they start half-opened during launch on version 1.11, but are fixed on 1.12.
