

Kerbal Space Program - Bug #28255

Wrong EVA suit in IVA camera view.

07/11/2021 08:29 AM - Deepspeed

Status:	New	Start date:	07/11/2021
Severity:	Low	% Done:	0%
Assignee:			
Category:	IVA		
Target version:			
Version:	1.12.0	Language:	English (US)
Platform:	Windows	Mod Related:	No
Expansion:	Breaking Ground, Core Game, Making History		

Description

Win 64, all DLC, no mods, updated over time.

I put the new suits on my Kerbals, but I just noticed that my engineer was wearing the black and white version in the little IVA camera, and when I brought him out, the suit was blue. I checked in the astronaut complex and I had the blue variant assigned to him.
