Kerbal Space Program - Bug #28350

Maneuver Tool cant calculate for a Ike to Duna or Gilly to Eve and keeps the "Create" button nonresponsive.

07/23/2021 11:57 PM - Anth12

Status:	New		**Start date:**	07/24/2021
Severity:	Low		**% Done:**	0%
Assignee:				
Category:	Gameplay			
Target version:				
Version:	1.12.0		**Language:**	English (US)
Platform:	Windows		**Mod Related:**	No
Expansion:	Core Game			

Description

KSP 1.12.1 + BG + MH

I believe this might be because there is only one drop down menu option

It would be correctable if there were two options in the drop down menu

Note: When tested the "Create" button will flicker slightly every 4 or so seconds

The maneuver planner creates Hohmann transfers between two bodies with the same parent body (ex. Kerbin to Duna around the Sun) at the correct transfer window. There is no transfer window when going from a body to its parent, so it wouldn't make sense for the Maneuver App to find one. But it might be nice if it planned the ejection burn anyway, which would be more like an added feature than a bug fix.

Actually. No.

The screenshots I have attached show that the Maneuver Planner can indeed do this.

#3 - 07/24/2021 10:02 PM - Anth12

Try to do this from Ike to Duna or Gilly to Eve and it wont work because of something wrong with UI
