Expansion:	Breaking Ground, Core Game, Making History		

Description

they cannot be moved.

On this vessel engineer is standing on t400 fuel tank, which is end of vessel root, and there is more than enough kerbals to assist. Still can't move it.

History

#1 - 10/05/2021 07:31 AM - Anth12

I don't think the FL-T800 is even meant to be affected by EVA construction

#2 - 10/12/2021 02:32 PM - jukkamuhonen@hotmail.com

Anth12 there isn't any documentation about restrictions about this.

#3 - 10/13/2021 02:14 AM - Anth12

Is there documentation in regards to EVA construction for any parts?

#4 - 10/15/2021 08:56 PM - goufalite

You can see which part can be moved in EVA by clicking on the cargo button top-left in the VAB.

#5 - 10/15/2021 08:58 PM - Anth12

Exactly. Its the only place I know of. Within the game.
