Kerbal Space Program - Bug #3851

Interrupting the "plant flag" dialog freezes the user interface

12/16/2014 10:54 AM - voltara

Status:	Needs Clarification		**Start date:**	12/16/2014
Severity:	Normal		**% Done:**	0%
Assignee:				
Category:	Controls and UI			
Target version:				
Version:	0.90		**Language:**	English (US)
Platform:	Linux		**Mod Related:**	No
Expansion:				

Description
What happens: Clicking "space center" or "recover vessel" while the "plant flag" dialog is open freezes the user interface.

How to reproduce:

- EVA your kerbal (the launch pad is OK)
- Plant a flag
- Wait for the game to prompt you for the flag's name
- Instead of entering a name, click either "space center" or "recover vessel" at the top of the screen
- The game switches to the space center, but the mouse and keyboard no longer work properly. Although it is possible to quit to main menu with the "Esc" key, the main menu is unusable.
