Description
In their .cfg, ServiceBay_125 and ServiceBay_250 both have "maximum_drag = 0.2" and "minimum_drag = 0.3". Either they should be swicthed, or "minimum_drag" should be set to 0.2.

You think this would be fixed in 1.0.2 but no. I feel like they gave up on KSP as no one reads this anymore! Sad sad day! :-(
