

Kerbal Space Program - Feedback #5936

Staging icons for docking ports don't go away after being staged

11/12/2015 11:09 AM - Hexcube

Status:	Needs Clarification		
Severity:	Very Low		
Assignee:			
Category:	Parts		
Target version:			
Version:	1.0.5	Language:	English (US)
Platform:	Any	Mod Related:	No
Expansion:			

Description

After using the docking port as a decoupler, the icon lingers in the current stage. It should vanish, like the decouplers, and have the option to turn it back on in the context menu (for in-orbit assemblies with multiple stages).
