#### Description

In career mode, when right-clicking on a KSC facility, the upgrade cost shown in the popup window is prefixed with the "Â£" (pound) symbol rather than the "VF" currency symbol used elsewhere.

This bug was not present in version 1.0.2 (the only 1.0.x version I have handy).

Build 1260, no mods installed.

Confirmed - I see this as well on windows KSP client 1.1.2.1260 64-bit.

I thought something looked funny, but couldn't quite figure out what :)

(note that my locale is en-CA so it's not like it's my local currency sign)
